PROFESSIONAL SUMMARY

AI & Data Science professional with expertise in machine learning and data analysis, skilled in developing data - driven solutions for real-world problems, with a focus on continuous learning and delivering measurable results in dynamic tech environments.

SKILLS SUMMARY

TECHNICAL SKILLS

AI & Data Science: Machine learning, deep learning, data analytics including SQL, RAG & LLMs.

Programming Languages: Python, familiar with C.

Frontend Development: HTML, CSS, JavaScript.

Tools: Git/GitHub, MS Office, PowerBI, Figma, Canva, Netlify and Render.

SOFT SKILLS

Communication Skills: Strong writing and verbal communication abilities

Leadership & Teamwork: Led 3-4 hackathons and multiple projects, including final-year academic project and skilled in guiding teams to deliver results.

Languages: English and Tamil.

PROFESSIONAL EXPERIENCE

Summer Internship - Full-Stack Development (ASP.NET)

August 2024

NxtLogic Software Solutions, Coimbatore

Developed a fitness website using ASP.NET, HTML, CSS, and JS; incorporated authentication and managed SQL Server.

Virtual Internship - Data Analytics & Visualization, Accenture (Forage)

November 2024

Conducted data analysis and created visualizations using Excel and Python, extracting insights and delivering reports.

Virtual Internship - GenAI, BCG (Forage)

March 2025

Developed AI financial chatbot using 10-K and 10-Q data to provide actionable insights.

MAJOR PROJECTS

Credit Card Fraud Detection - AI/ML models for detecting fraudulent transactions

Gym Fitness Web Application - Full-stack app with user registration, class scheduling, SQL Server data management

Real-Time Equity Analysis Web Application - Python-based real-time stock analysis

IoT - Smart Parking System - IoT & ML for real-time parking slot detection

Other Projects - Fake Product Link Detection using AI, Data Analysis for Online Election System, Financial Chatbot.

COURSES

- Python for Data Science, AI & Development (**Coursera**) - AI and data analysis
- HTML, CSS, JavaScript (**Guvi**) - Frontend development
- Learned Blockchain fundamentals through **Oracle**.
- MongoDB** - CRUD, data modelling, aggregation, transactions, cloud deployment

ACHIEVEMENTS

TANCAM Women's Design Hackathon 2024 - Finalist for "Smart Parking System using ML."

SIH 2024 - Advanced in "Face Liveness Detection using DL"

Engineer Hackathon, NITK 2024 - Developed "Real-time Equity Analysis for US Stock Market" in 24-hour hackathon.

Edvedha Ed Tech 2024 - Best Performer in state-level workshop on portfolio creation.

PSGiTech Hackfest 2023 - Team recognized in Top 10 for "Live Translation" solution.

EDUCATION

Anna University Regional Campus

Coimbatore, Tamil Nadu

Bachelor of Technology in Artificial Intelligence & Data Science - 8.8/10 GPA

Present

Little Angels Matric Higher Secondary School

Namakkal, Tamil Nadu

HSC- 94.2 %

2022

SSC - 93.4%

2020
